David,

I was toying around w/ the examples on your page here:

http://www.dfanning.com/graphics_tips/newoldcmds.html.

Under the example for TVIMAGE, I needed to add the /OVERPLOT keyword to the FSC_CONTOUR command to get the image as shown.

I like what I see in these wrapper procedures of yours. I passed the link on to my fellow IDLers in the department and I'll post any interesting feedback.

Appreciate your work,

Paul
