> Oh, and lest I sound ungrateful, thanks very much for the code updates. :o)

You did appear to be somewhat ungrateful. I was
afraid you had abandoned me for the dark side
and the New Graphics. :-)

Cheers,

David

P.S. Lest *I* appear ungrateful, I actually think the
New Graphics are a great idea. I just can't use them
because I can't seem to keep IDL 8 running very well.
I do note that since I installed IDL 8, the IDL 7
Help system works perfectly! That's almost reason
enough to upgrade to IDL 8, right there. ;-)
