Subject: Re: [Q] removing undefined variables automatically/rename Posted by Marcos Portabella Arn[1] on Tue, 12 Nov 1996 08:00:00 GMT View Forum Message <> Reply to Message

Hi,

As far as I know, if you want to rename a variable without using the double space memory during the operation, you do not need to add the delvar command. So, with

a=temporary(b)

is enough
