Subject: how to put bounding box over detected regions?
Posted by vijay on Sun, 06 Feb 2011 06:35:08 GMT

hi friends,

      i have a segmented image and the segmented features are
white and the remaining are made zero. I want to put bounding box over
each region separately. how i can do this?

the link to image is https://picasaweb.google.com/vijayansiva/Idl#557045962360638 8546

   thanks in advance.
