Hi,  
I know this NOAA format.  
It is used by SMIS laboratory in Russian Space Research Institute  
<http://www.iki.rssi.ru/eng/monitor.html>  
It is very much like noaa l1b, but I do not know if any conversion  
tools.  
I can share my homemade IDL code if you are interested.  
Regards,  
Dmitriy Altyntsev
