Russ,

The following is in the documentation, but it is _not_ where I would
most expect it -- under OPEN in the Reference Manual. The following
comes from the User's Manual chapter on "Files and Input/Output":

   "Use the FREE_LUN procedure on a LUN that has been allocated by
   GET_LUN."

      J. Bob Brown   jbob@snap.med.ge.com
            Consulting for GE Medical Systems
          For ID only -- standard disclaimers apply.

      "Of course that's just my opinion. I could be wrong."
                        -Dennis Miller
