Folks,

Yikes! Coyote's friend, Mountain Lion, made an appearance just about a half mile from my house this afternoon. This is pretty much in the center of town, too! Very near the University.

Let's just say, from the size of him, this looks like the one whose tracks I see every time I hike my favorite trails just west of town. I understand they prefer young mountain bike riders wearing ear-buds to leathery old hikers. :-)

Cheers,

David
