Has anyone coded up the following neural network architectures and associated training algorithms in PV-WAVE or IDL:

- 1) Multilayer perceptron
- 2) Radial basis functions

I'd be grateful if they's let me have the code. Please E-mail any responses to:

jvb%hermes.mod.uk@relay.mod.uk (internet)
jvb@uk.mod.hermes (Janet)

Thanks in advance,
John Black.
