Hello,

I wan to know how to draw spheres in 3D space with xyz axes.
For example, I have 7 spheres with radius of 1 and its center is at
(0,0,0)
(2,0,0)
(-2,0,0)
(0,2,0)
(0,-2,0)
(0,0,2)
(0,0,-1).

Since I don't have idea for 3D drawing, it is hard to start.

Could you let me know any clue, help, suggestion?

Thank you very much.

Sincerely,
Jun
