Which is odd, actually, since this morning I am finally getting
around to getting caught up on my Book Review list and I am
reviewing the book In the Plex: How Google Thinks, Works,
and Shapes Our Lives by Steven Levy. It was a MOST
excellent book! By turns terrifying and reassuring.

After reading it, I sure wouldn't have expected the
shoddy, shoddy Google Groups interface. Heck, I was
all set to get a new Android phone. Now I may be looking
at the iPhone again. :-(

Cheers,

David
