  Hi there, that was me who posted that problem. It would be excellent if
  you could also file a bug report with ITTVIS. I continue to be told it
> will be fixed in the next version, but they don't have a work-around in
> the mean time. I've begun the work-around of not using IDL for my
> NETCDF work, which is becoming more and more of the work I must do. It

Can you share the url of the tracked issue?
```

May be subscribing or telling who all is affected brings it on top.
