-I wanted to know if it is possible to have the value of a variable in
-the title of a plot? FOr instance, say I want the value of x in the
-title, because it might change with each compilation for some reason.
-How would I do that, if it's possible.

An easy one.

IDL> i=1951

IDL> plot,data,title='A plot of data for year '+string(i,format='(I4)')

The format parameter is optional, you could just use string(i).
