Folks

hi,

i do have some arrays and i want to plot them in single graph like this (<http://imageshack.us/photo/my-images/836/image1qb.png/>) as you see in y axis i have three -0- and it is not regular plot. also i need

the x axis like the upermentioned image like Mar03, Aug03, I would be very thankful if you show me the solution with a simple example.

thanks

Cheers,

Dave
