OK, I have added the plus-minus symbol, designated as "+-" in cgSymbol. But the minus-plus symbol does not exist in the Symbol true-type font distributed with IDL. Thus, I can only do this symbol in a Hershey font, but not in a PostScript font. So, I have not implemented the minus-plus symbol.

The updated program is here:

<http://www.idlcoyote.com/programs/cgsymbol.pro>

Cheers,

David
