> Thanks again David. I didn't see a plus-minus symbol in there. Is there an easy way of getting one that postscript will like without using octal tables?

I've just always used "+" and "-" from the normal font. A Hershey font on the display and a hardware or true-type font in PostScript. Do you mean some kind of special plus and minus!? I'm not really sure what you are looking for here.

Cheers,

David
