Is it possible to use IDL 7.1 (7.1.1 or either 7.0) on Mac OS Lion?

When I try to install idl 7.1.1 (using idl711mac.zip) the following error has been occurred:

LSOpenURLsWithRole() failed with error -10665 for the file .../
idl711mac/MacOSX/Disk1/InstData/Install.app.
