Folks

hi,

I have a data like this and i want to plot column 1 (x) and column 2 (y) and column 3 as the name of the points on plot (like 12006, 12507 etc.). Could somebody help please?

```
0   0    12006
35 196.7  12507
70 779.8  13008
140 37   14010
```

.....

Cheers,
Dave
