Folks
hi,
I need to add the year that i have in my ASCII file to the iplot
(http://imageshack.us/photo/my-images/846/20120128132324.png/) that i
have. That means i have a 3 columns data: first and second are x and y
and 3 rd one is the year that i have for each x&y i just want to put
the year on the iplot.
Any idea would be appreciated.
Cheers,
Dave
