Oh, Hells Bells! That wasn't suppose to happen! :-(

OK, I'm just going to release the new version. I haven't
seen any problems with it, which doesn't mean squat in
the real world. I've included the old version in the
zip file, too, temporarily, in case all goes south.

Sorry for the massive confusion. It hasn't been
a good couple of days for me. A bad omen with
my open water dive certification looming on the
weekend. :-(

You can try it again here:

   http://www.idlcoyote.com/programs/zip_files/coyoteprograms.z ip

Cheers,

David
