Hi all,

I have a CASE code snippet which goes like below. I wanted to put the
CASE in loop which should ask user choice, after execution of each
CASE. Unless and unti user select exit option it should keeps on
asking for user CHOICE to execute. In below code i have 4 Case and 5th
CASE is for exit.

```
;
;
PRINT, 'ENTER YOUR CHOICE'
READ, CH

CASE CH OF
   1: BEGIN
;
;
```
