Subject: ENVI or IDL Analyst License Posted by kisCA on Mon, 06 Feb 2012 23:14:38 GMT

Hi there,

I wanted to use multivariate analysis method under IDL 8.0. I already found differenet algorithm working with ENVI but also some interesting function that would work only with an analyst license.

If someone have already face this choice or tried both of them, I would be glad to have some feedbacks:)

Thank you for your help
