Subject: Bug Reports Available?

---

Folks,

Does anyone know how to look up a bug report on the Excelis web page? Is it possible? I was interested in bug number CR63538, which prevents certain unspecified tags from being read from a GRIB file. I was curious to know which tags, specifically, can't be read.

Naturally enough, the Search function thinks I'm trying to steal State secrets and refuses to divulge any information. :-(

Cheers,

David
