Greetings-

I have heard of a numerical package that is an "add-on" to PV-Wave (actually, my boss heard of it). Can anyone supply information about it ? Since PVI and IMSL have merged, are there plans to come out with new libraries?

Also, what is the status of PV-Wave concerning the Solaris 2.1 OS ? Will it port ? Or is there a new version, covered by my maintenance agreement, that will arrive soon??

Thanks for any help-

Greg (lindstrom@acs.harding.edu)
