What I wanted to do is a polar contour plot with the contours levels labeled. I used the following commands.

```
Vals=[0.6, 0.7, 0.8, 0.9, 1.0]
```

```
Polar_contour, ArrayOfVals, XLons, YLats, $  
level=Vals,c_labels=[1,1,1,1,1],/follow
```

However, I never get any labels. HELP!!
