Environmental consulting firm in Santa Fe, NM seeks flexible, adaptable, scientific programmer.  IDL or Matlab experience absolutely essential (IDL strongly preferred). Must be able to quickly come up to speed with comprehending and expanding upon existing code.   Basic knowledge of ArcGIS and ENVI required.  Experience with web programming desired; preferably using Java and/or Ruby.   Perl experience also helpful.   Education or experience in ecology, remote sensing, or agricultural engineering practices a big plus.   Salary dependent on qualifications.  Please respond with resume and letter of interest.
