ok ok . let's try this:

```
B=INTARR(8,8)
sz=SIZE(A,/DIM)
count=0
FOR i=0, sz[1]-1 DO BEGIN
  curr_A=A[*,i]
  ww=WHERE(curr_A NE 0,nn_w)
  IF nn_w NE 0 THEN BEGIN
    B[*,count]=curr_A[ww]
    count++
  ENDIF
ENDFOR
```
