Helder,
In most instances, I also only see the INIT method listed as known
objects - however, all the others are still available and work. See the
same thing with the GoogleEarth TypeLib 'coclass ApplicationGE', for
example. Use the SDK toolkit 'OLE/COM Object Viewer' to look at all the
TypeLib methods.

seem.
> First problem is:
> If I call the following line:
> IDL_Object = OBJ_NEW('IDLCOMIDispatch$PROGID$RSIDemoComponent.RSIDemoObj1 ')
> inside a procedure in IDL 8.2 (32-bit) I get the desired object. I'm actually running
IDispatchDemo demo of IDL.
