> David, regarding the class hierarchy, when I have one copy of the coyote graphics library on my IDL path the hierarchy works properly. However when I put two copies of the library on my path I get the behavior you are seeing.

Since I spend half my life preaching about ONE Coyote Library on an IDL path, it would be hypocrisy of the highest degree if I had more than that! I have only one copy of the Coyote Library.

But, who knows. I'll try it again once I get IDL 8.2.1 installed on my completely reconfigured hard drive. :-)

Cheers,

David
