Subject: Widget driven analysis
Posted by sid on Thu, 01 Nov 2012 06:02:18 GMT

Hi everyone,

      I have a widget driven analysis routines, with the code that I am running. The problem is I am able to plot the results of the code with the help of the widget. But unable to see the result as text file.

Could anyone please help me in getting the result as text file.

thanking you in advance
