Hi All.

I'm trying to use write_mpeg.pro procedure
by Christian Soeller
posted some time
ago in this group but it does not work...

my code:

```
-----  
mov=bytarr(100,100,3)  
mov(*,*,0)=0  
mov(*,*,1)=100  
mov(*,*,2)=200  
write_mpeg, 'test.mpg', mov
```

I've got errors:

```
% Program caused arithmetic error: Floating divide by 0  
% Detected at WRITE_MPEG      106 write_mpeg.pro  
% Program caused arithmetic error: Floating illegal operand  
% Detected at WRITE_MPEG      106 write_mpeg.pro  
ERROR: Invalid input file expansion expression (no ']')  
IDL>
```

Is it my fault or write_mpeg.pro is incorrect?

Thanks in advance,

VE
