If you are reading this now, you, like me, are badly in need of money. Believe me, I understand. If the United States had debtor's prison, I'd have been in it years ago. However, there is a way out. All you have to do is use the follow program. You can make HUNDREDS, if not THOUSANDS OF DOLLARS.

Mail a single dollar bill to each of the following people, along with a note which says:

"Please add me to your list. My name and address is (include your name and address)."

- (1) Ralph
7439 Hwy 70 S. #268
Nashville, Tn. 37221
- (2) Bob Sullivan
4553 Atascadero Dr.
Santa Barbara, Ca. 93110
- (3) Bill Gray
8114 SW 104th Way
Gainesville, FL 32608
- (4) Y. Yuksel
1561 Mesa Dr. #123
Santa Ana, CA 92707
- (5) J. M. Little
Clemson University
P.O. Box 3669
Clemson, SC 29632-3669

Then copy this message, and re-post it to as many newsgroups as you can, but with the following changes:

Erase the first person's address.
Move each of the remaining addresses up one number.
(#2 becomes #1, #3 becomes #2, etc.)
Add your name and address as the fifth one.

What will happen is this. Others who, like you, are

in need of money, will read your message, just as you are reading this one, and decide that they need the extra cash. They will send you their one dollar bill, and repost the message, making the same changes you did. You will still be on the list as #4. Someone will read their message, send money to everyone on the list, including you, and post another message, making the changes. You will still be on the list as #3. This will continue until you are off the list, but by the time you are off the list, AT LEAST five people will send you money. There's the five dollars you sent. I cannot confirm them, but there are continuous statements about how people have made hundreds, thousands, and even tens of thousands of dollars with this plan. Remember, the more places you put this, the more money you make.

Does this seem unreasonable? It shouldn't. There are millions of people in the United States just like you, who need money, and are looking for a solution. Thousands of people are getting on the internet for the first time, every day, and each of them wants to make money. Is it so unbelievable that they, like you, will follow this plan, hoping for a big return? At most, it will cost you ten dollars: one dollar for each person, and five for the pen, stamps, and envelopes.

Is it impossible for you to imagine there are ten people somewhere in America who want to make money?

If there are, then you've only lost a little time. But in fact, there are MILLIONS of people who NEED the money, and they are looking for ANY chance to make some. You will more than make up for any time or money you spend.

Is this program illegal? No. There's nothing illegal, or even shady, about this. Do you want proof?

1. The inclusion of the message "Add my name to your list." makes this a service, just like any TV advertisement or 1-900 number. Are those illegal?
2. Does the federal government police the internet? No. Do they open your mail? No. THAT would be illegal.
3. If this were illegal, do you really think I'd be dumb enough to give the police my address?

Please, support this program. There is the potential for

both you and I to make a LOT of money together. Thank you.
