Got that one solved:

Add these axkeywords:

YTICKS: 8, YTICKV: [1*60, 5*60, 10*60, 15*60, 30*60, 60*60, 120*60, 240*60, 480*60]

Note they need to be in the pre-scaled units, hence, the * 60 multiplier.

Cheers
