Hi,

map_set,0,180,limit=[-20,-280,55,-100],/cont

produced the same results as Siri's, no south pacific nations. I just received the latest version on ENVI (2.6) and IDL (4.0.1c) too. I'll look at the patch that David mentioned but I remember installing a similar patch about THREE versions ago. This should have been fixed long ago.
