Subject: Waiting for Godot Posted by David Fanning on Wed, 16 Jan 2013 17:20:56 GMT View Forum Message <> Reply to Message

Folks,

Has anyone mentioned that the IDL documentation is terrible?

I'm looking for font tables and information on how to create an AVI movie in IDL. I know both of these things exist, somewhere. But, they are not indexed in any sense that I can discover. Does anyone know where this information might be in the IDL documentation?

Thanks,

David
