
Subject: printing comma delimited file from vectors

I have the following vectors (Date, time, rhie, cirrusp) each of the form FLOAT = Array[1, 16595]. The code below puts all the data in one single column (and no commas) instead of 4 comma delimited columns. In the past this has worked for me. Can somebody help with correcting the syntax to produce the 4 comma delimited columns.

```
openw, lun, opath+dir+_kramer4.txt', /get_lun
printf, lun, 'Date, time, rhie, cirrusp'
printf, lun, date,'',time,'',rhie,'',cirrusp
free_lun, lun
```
