Subject: Re: differences among map_proj_image, map_image and map_patch
Posted by Olivia on Mon, 18 Feb 2013 18:46:31 GMT

I know it is a complex question.
I am a newbie in this area, and began to use IDL just days ago.

The x, y value of new variable means the coordinate value of each point on the projection map.

Thanks for your instant response.
Olivia
