I've closed my (thoroughly unscientific) IDL OS poll. Check the results at:

<http://idldatapoint.com/2013/02/21/poll-on-what-operating-systems-do-you-use-idl/>

Despite being a Linux fanboy, I expected more votes for Mac OS X. And although this is anecdotal, it's interesting to note that over half of the respondents (60 percent, in fact) use a UNIX-based OS.
