Subject: Grid lines misaligned when using CONTOUR and MAP_SET Posted by Matt Francis on Thu, 07 Mar 2013 22:23:19 GMT

I want to do something pretty simple, which is to create a map with continents and overlay contours. The bare bones of the key part of the code looks like this:

position = [pos_xmin,pos_ymin,pos_xmax,pos_ymax] Contour,data,lons,lats, /Fill, Levels=contourLevels, c_colors=contourColours,position=position Map_set,0,180,/continents,/cyl,/grid,/NoErase,position=posit ion

It looks like map_set (or actually map_grid) is making grid lines within the region specified by position, but is leaving room for some non-existant annotation and therefore becomes misaligned with respect to the co-ordinates established by CONTOUR.

How can this be done correctly? Should I be using MAP_PROJ_INIT?
