I think it's ridiculous that in today's world of multi-core CPUs, IDL

>

still has no means of running multithreaded analysis from the VM.

This is a major handicap to its use in cpu-intensive applications.

Hi,

thanks for your input.

I'll send an email to Exelis and see what they say about this. I'll keep you up to date when and if I get a response on this.

Cheers, Helder
