Xin Tao writes:

> I think it would be great if I could just type `plot(x,y)` instead of `!null=plot(x,y)` to get a quick plot of x-y. I don't know how many people here agree with me, but typing `!null` everytime I don't care about the return value is just too much work.

Oh, please don't get me started on the subject of kids today... :-(

Cheers,

David
