Subject: Contour Problem
Posted by Alexa on Mon, 25 Jul 2011 17:20:35 GMT

Hey everybody,

I think this is probably a pretty easy problem but I could get help
that'd be great.

I'm making a contour plot and and I want to change the values of the
axes so I'm doing

x=[-6, 0]
y=[-3, 1]

Contour, x, y, z

But I get an error that says that x and y need to be 2D arrays, but
aren't those already 2D arrays? Do I have the syntax wrong?

Thanks!
Alexa
