I want to do something pretty simple, which is to create a map with continents and overlay contours. The bare bones of the key part of the code looks like this:

```
position = [pos_xmin,pos_ymin,pos_xmax,pos_ymax]
Contour,data,lons,lats, /Fill, Levels=contourLevels, c_colors=contourColours
Map_set,0,180,/continents,/cyl,/grid,e_grid={lonel:10.,latd el:10.},$
/NoErase,limit=[self.lat_min,self.lon_min,self.lat_max,self. lon_max],$
position=position,mlinethick=5.
```
