Hi,

It is the same error:

/usr/local/itt/idl/bin/idlde: 609: exec: /usr/local/itt/idl706/idlde/idlde.linux.x86: not found

I have the IDL Version 7.0.6 an I use ubuntu 12.04 (64 bits).

I've checked the link an it seems that I have the same problem with libraries in 32/64 bits.
Unfortunately the link provided in exelivis forum to explain the installation of libraries doesn't work

http://www.ittvis.com/services/techtip.asp?ttid=4425

I see a message like "Article does not exist or Permission Denied."

I have an account of this forum, so I Suppose that it is not a permission problem...

thanks!!

Victor
