Subject: Re: IDL environment "idlde" doesn't work Posted by Petros Syntelis on Wed, 03 Jul 2013 08:29:18 GMT View Forum Message <> Reply to Message On Tuesday, May 14, 2013 5:50:48 PM UTC+3, victor....@gmail.com wrote: > Hi, > > > I have tried to run the idl environment "idlde" in ubuntu 12.04, but when i execute the command idlde I obtain this message: > > > > /usr/local/itt/idl/bin/idlde: 609: exec: /usr/local/itt/idl706/idlde/idlde.linux.x86: not found > > I have cheched and I have the file "idlde.linux.x86" in the same location "/usr/local/itt/idl706" > > >

thanks a lot!Víctortry running\$idlde -32

\$idlde -64

for the 32/64 bit

> > > >

anyone have any idea?

Try installing sudo apt-get install ia32-libs ia32-libs-multiarch:i386
