ImageMagick is giving me an error whenever I try to use Output. Anyone know what is going on?

```

error/png.c/MagickPNGErrorHandler/1804.
```

```
convert: corrupt image `/var/tmp/magick-5612FLG4wulHookp1' @

```

```

```

```

My problem is similar to the one posted here:

The solution there was to check permissions and install ghostscript. I have access and ghostscript is installed.
