: IDL>?
: %Unsupported X Windows visual (class: StaticGray, depth: 0).
:   Substituting default (class: UndefinedVisual), Depth: 0).
: %Execution halted at: $MAIN$
: #####
: My Video Card is Leadtek WinFast S600 with EDO Ram 4 MB.
```

As far as I remember IDL supports either 8 bit or 24 bit, but not 16 (sigh!).

Hope this helps,

Chris Marquardt.

Christian Marquardt
