Karlo, if you are reading this, please update your Coyote Library to something that is less than 10 years old! :-)

```
minval = 46.8614502  
maxval = 46.8615112  
cgcolorbar, range=[minval, maxval], divisions=10d, format='(F0.6)'
```

You can find the Library here:

http://www.idlcoyote.com/programs/zip_files/coyotelibrary.zip

Cheers,

David
