Subject: Re: "infinite" nested for
Posted by Chrisss on Mon, 25 Nov 2013 18:00:53 GMT

Mr Fanning, thanks for your reply!
when I calculated fitErrors, T1-s0 and f values within the loops, I wanted to find the best inversion time T0.
they do their work outside the loop, too!? wow! I had not really thought! thank you so much
cheers, Christina
