Subject: Anyone written write_MPEG() ?
Posted by Craig Hamilton on Tue, 08 Apr 1997 07:00:00 GMT

Greetings, IDLers:

Has anyone written a routine to dump a stack of images out as
an MPEG movie? (Or QuickTime?) I've been cw_animate'ing
beating hearts in IDL, and folks want movies they can play on
their PCs and Macs.

Any pointers much appreciated.
