> You've gone "above and beyond" already. By all means enjoy your visitors and the rest of the holiday week. I've gotten around this by writing directly to png (rather than go through an intermediate ps file) for the animation I'm working on. I'm still not sure why the intermediate step is useful, but I trust that it is because you chose to use it.

I use PostScript intermediate files to create nice fonts. That's pretty
much the only reason for it.

Cheers,

David
